Stellar Spa Launches New All-Natural Skin Care Line Combining the Therapeutic and Anti-Aging Benefits of Nature and Science

Corte Madera, CA (October 2004) – Stellar Spa, award winning providers of unique and innovative spa treatments and purveyors of natural skin, bath and body care products, introduce the Stellar Spa Signature Skin Care Line. This highly effective, results-oriented product line combines natural and active ingredients such as DMAE, Co-Q 10, Alpha Lipoic Acid, vitamins A, C and E, aromatherapy, and plant extracts, with a scientific approach during formulation to meet consumer needs, be it reversing the effects of sun damage and environmental aggressors, treating acne, or reducing wrinkles and fine lines.

Originally formulated for the professional spa setting, Stellar Spa brings the highest quality skin care experience and spa treatments into the home to make an immediate impact on the skin. “The ingredients you put on your body are as important as what you put in your body,” said co-owner and Esthetician, Dana Vandeweg. “We formulate our products to complement and take advantage of the body’s natural processes.” The extraordinary ingredients used in the Stellar Spa Signature Collection deliver essential nutrients that keep skin healthy and provide the vital antioxidants and vitamins needed to protect the skin against the environment and effects of aging.
