These therapeutic add-on enhancements make the Signature Massage Indulgence the ultimate pampering, relaxing and rejuvenating massage experience.

Stellar Spa's Signature Massage Journey embarks with a tingling Peppermint Foot Scrub to rejuvenate tired, aching feet. The scrub prepares the feet for a unique Stellar Reflexotherapy treatment. Many ancient cultures believe treating the feet can have a relaxing and healing effect on the whole body. After focusing on the feet, the entire body is then pampered with a combination of Hot Stone and Swedish Massage using the Aromatherapy Blend chosen by the client.

Next the calming Phyto Lymphatic Eye Treatment featuring chamomile, eyebright and bilberry, soothes away puffiness and relieves tired eyes. Following the eye treatment, we apply a Personalized Facial Mask Treatment that balances and revives the face and skin using one of our exclusive certified-organic Stellar Spa Masks (Purifying, Refining, Hydrating, or Rejuvenating). While the eye and face treatments work their magic, a thorough head/neck/shoulder massage is performed.

The journey then continues on the other side of the body as therapeutic muscle relief gel is applied to the back and allowed to soak in while the rest the body is treated to a combination of Hot Stone and Swedish massage. Stellar Spa's exclusive Muscle Relief Gel is formulated to penetrate sore tired muscles. Deep Tissue Massage is then performed on the back to relieve aching muscles and provide deep relaxation.

The Signature Massage Journey concludes with an exotic Elixir Tonic beverage served in our relaxation lounge. These customizable healing tonics are made of herbs & fruits and are based on the ancient principals of Chinese Medicine. The therapist will help choose the most appropriate tonic to conclude the client's journey. Whether the client's goal is to relax, rejuvenate, energize or simply deepen the body/mind connection, the Stellar Spa Signature Massage Indulgence will deliver on all expectations.
